Email

Declaration

Removal Date

I request voluntary removal of my name from the Register as of the above date. I confirm that I will not practise any acts of veterinary science in New South Wales from this date, until my name is restored to the Register.

I acknowledge that:

1. Voluntary removal means that my name can be restored to the Register at a later time, without incurring any financial penalty.
2. At the time of restoration, if I have been practising in another State, Territory or overseas, I will be required to arrange a letter of professional standing from the most recent registering body.
3. Alternatively if I have been occupied in non-veterinary activity since removal, the Board may request that I supply evidence of my character and competency to practise.
